3. Pursuant to MPEP 606.01, the title had been changed to read:

-- MANAGING A SERVICE HAVING A PLURALITY OF APPLICATIONS USING VIRTUAL MACHINES --.

4. The abstract of the disclosure had been amended as:

~~The aim of this invention is to propose a method for allowing the use of several virtual machines including a plurality of applications and to federate these applications in order to form services.~~ The method includes for managing applications[[,]] ~~making use of~~ by utilizing at least two physical machines linked by communication means.

These machines comprise a physical structure on which a first software layer adapted to the physical machines is loaded. The machines also include a second layer forming a virtual layer on which virtual machines will operate. The second layer includes at least one application. The method includes loading a virtual machine control program
